COMMERCIAL INTELLIGENCE

THURSDAY EVENING, MARCH 12.

We have had another week of the most unsatisfactory character as regards current business, and full of the gravest anxiety and uneasiness concerning the future. The political advices from home have daily become more warlike in tone, and belief in a pacific settlement of the Afghan boundary question with Russia which a week ago was decidedly strong in commercial circles, is now extremely slight. To say that things are quiet in consequence conveys but an inadequate idea of the situation; absolute stagnation accompanied by anxious uncertainty being nearer the mark.

Our import trade continues to exhibit great dulness, supplies of all the leading articles, but notably Piece Goods and Yarns, being a long way in excess of present wants which are unusually light for the time of year. This will right itself in time no doubt by smaller supplies later on, but our local Spinning and Weaving Mills are suffering severely from inability to get quit of their production. Hitherto by sales here and free shipments on consignment to China and Japan they have managed to keep going without accumulating more stock than they could carry, but the home and foreign markets are alike showing signs of over supply, and unless production can be curtailed for a time it is felt that the outlook is fraught with danger. A movement to this end has been initiated by some members of the Millowners' Association who have called a meeting for Thursday next to discuss the question, and in the interests of the industry it is to be hoped something like unanimity may be obtainable. On some of the better managed concerns which even now are paying their way, short time may tell somewhat unfairly, but in their case also a little self-denial will bring a return in the shape of a general improvement in trade.

Our exports are in no way in better case than our imports. The demand from European markets is sluggish to a degree whilst arrivals are very light of both Cotton and Wheat. Linseed is the only article coming in freely, and that helps to steady freights especially for near loading, 26s. 3d. to 27s. 6d. being the current quotation to-day. Forward however 25s. to 26s. 3d. are the rates. Money keeps easy owing to the limited extent of business passing, and Exchange has undergone but little alteration during the week. Shares however are mostly depressed, the adverse position of Spinning Mill shares reacting on other things. Government Paper moves with every change of the political aspect, but considering the advices from the London Stock Exchange maintains its average value wonderfully well. Yesterday's quotation of 97⅛ for Consols for instance represents, we think, greater want of confidence than Rs. 95½ for 4 per cent. Rupee Paper.

Money.—The last published return of the Bank of Bombay showed a decease in the Cash Balance of 11½ lacs. Of this only about 8 lacs could be attributed to increased trade demand, and the general market must still be described as comparatively easy. The bank's official minimum for loans secured by Government Paper remains at 6 per cent., but money at call outside is not worth more than 5 per cent.

Exchange.—The level of Sterling has remained singularly free from fluctuation throughout the week. On Saturday when business for this mail opened the banks partially advanced both their drawing and buying rates 1-32d., and in the former the rise has since been maintained. For private paper however 1s. 7 3-16d. for 3 months' Credits for the mail has practically always been obtainable, and we quote at the close to-day:—

Bank Bills on demand	1s. 6 29-32d.	per rupee.
Do. Telegraphic	1s. 6 13-16d.	"
Do. Three months' sight	1s. 7 3-32d.	"
Credits, do. do.	1s. 7 3-16d.	"
France, do. do.	2⁰3¼	"

What we wrote regarding the position last Thursday holds equally good to-day. Bar Silver in London has not moved from 49d. per oz., and at that supplies are apparently liberal, further shipments to this side being reported by Reuter this morning to the extent of £110,000. This and the depression in our export trade is of course in favour of weakness, but should war with Russia be averted, more activity in shipments of produce would certainly follow and with that probably firmer exchange. The uncertainty however is so great that the banks as buyers, and merchants as sellers, are alike indisposed to operate beyond their actual requirements thus preventing anything in the shape of speculative fluctuations.

The biddings for Council drafts in London yesterday resulted in 45 lacs of bills being allotted at 1s. 6 25-32d., and 22 lacs of wire transfer at 1s. 6⅝d. As compared with last week the former is the same average, but transfer are 1-32d. better.

Government Paper.—The market opened after the departure of last mail with a very steady feeling. Fours being quoted at Rs. 65½ to ⅝ on Saturday. Firm advices from Calcutta on Monday morning caused a cheerful feeling under which the quotation was rapidly advanced to Rs. 96¼ only however to fall as quickly again the same afternoon to Rs. 95⅝ owing to adverse political advices from London. On Tuesday no change took place, but yesterday the rate weakened down to Rs. 95½, and to-day although the same quotation is maintained, it is nominal with sellers no buyers, and forward delivery is offering at Rs. 95½ without eliciting business. Fours-and-a-half remain at Rs. 99 nominal. From Calcutta the quotations by wire to-day are Rs. 95⅛ and Rs. 97⅛ respectively.

Shares.—There has been no improvement of any kind in the position of the market this week. On the contrary in *Spinning and Weaving* Mill shares the depression has daily increased, and is now as intense as it well can be short of actual panic. Our quotations show a fall during the week of Rs. 125 in Madras United, Rs. 110 in Oriental, Rs. 100 in Queen, Rs. 77½ in Dhurrumsey, Rs. 75 in Manockjee Petit, Rs. 65 in Hindustan, Rs. 60 in Alliance, Rs. 55 in Mahalukshmi and City of Bombay, Rs. 50 in Southern India, Rs. 45 in Jewraz Balloo and Great Eastern, Rs. 40 in Hydrabad and Soonderdass, and Rs. 20 to Rs. 30 in other companies. Even at these reduced figures, which show many well-found concerns at a discount of 40 to 50 per cent, buyers still hold aloof, the tendency amongst investors being evidently to anticipate a further fall, and we must admit the outlook justifies the anticipation, unless the Agents unanimously adapt short time. That step would not only bring about an improved position as regards supply and demand of Goods and Yarns, but would restore public confidence in the industry which at the moment is at a very low ebb. As Mill shares constitute the bulk of the market the depression in them reacts on almost every other description of joint stock enterprise. *Bank of Bombay* shares are Rs. 20 lower on the week, whilst in *Press* companies the fall has been general. Fort Press have dropped Rs. 125, Akbar Rs. 50, Prince of Wales Rs. 45, Berar Rs. 35, Colaba Rs. 25, Manmar and Mofussil Rs. 27½, Bombay and Bellary Rs. 15, Prince of Wales Rs. 7½, and Apollo Rs. 5. Amongst *Miscellaneous* companies, the most noticeable move has been in Bombay-Burmah Trading which have declined Rs. 250 in old, and Rs. 55 in new shares. Treacher and Co., Limited, are easier by Rs. 20. In Flour Mills, Bapty Bros. have receded to Rs. 30 premium, Bombay are firm at Rs. 110 premium. Alcock, Ashdown & Co. are steady at par. Bombay Ice Co., have improved Rs. 2 to Rs. 109. Marcks & Co., Limited, are quoted at Rs. 10 per share premium.

IMPORTS.

Piece-Goods.—We have seldom had to report a more stagnant market for goods of all classes than has prevailed since last mail left. In the bazaar the week's clearances are not estimated to total over 2,500 packages, while the new business from first hands or on indent, are probably even less, and of local manufactures the sales are put at about 1,700 packages. This of course means that the already heavy stocks in the hands of dealers have increased rather than diminished, and the position is to that extent weaker for ready and the immediate future. Sellers recognish that fact in their willingness to concede a half to one anna per piece on most of the leading descriptions on ready sale, at the same time it is not a disadvantage as regards prospects for the future inasmuch as it may tend to bring about the long talked of check in shipments from the other side without which prospects of recovery seem hopeless.

Such business as we have passing at the moment is in the lighter cloths like Mulls and Jacconets, which may be called in season. Shirtings, Madapollams and T. cloths are all difficult to move.

Twist.—For English Yarns prices are nominally unchanged, but even at a concession the demand would be slack as buyers seem to be stocked for the time being. Local Yarns are in a very depressed state and stocks are only prevented from becoming excessive by the Mills consigning to China and Japan which, however, simply means postponing the loss as these markets are also overdone. The local sales are only put at about 1,200 bales for the week, and those affected by taking slightly lower figures.

Metals.—*Copper* owing to weaker advices from home by wire are quoted As. 4 to As. 8 per cwt. lower, Braziers on the spot being Rs. 36 to Rs. 36½ per cwt. *Yellow Metal* is weaker owing to the same cause at Rs. 31 to Rs. 31½ per cwt. *Iron* is quiet at unchanged values. Walsh Bars we quote at Rs. 25 per candy.

Coals.—Resales by speculators and consumers keep prices down at about Rs. 15 for both Davis son's and Cardiff in any position, but importers are not pressing sales below that rate and there has consequently been little new business done.

EXPORTS.

Cotton.—For the middle of the export season we could scarcely have had quieter advices than those we have been receiving by wire from Europe during the past ten days. Neither from Lancashire nor the Continent have any buying orders of importance been forthcoming, and although prices are about Rs. 2 lower than we quoted for last mail exporters have only been buying to cover previous forward sales. The transactions reported altogether sum up about 15,000 bales, but of this quite a third are due to buying back on the part of natives, and the balance is made up of Omras and Bengals ready and Broach for April.

The *receipts* are again extremely light making the total since 1st January about 120,000 bales under the same time last year. This according to some people who cannot see that the Bengal crop is exhausted and Omras only an 8 anna yield, is always to be made up at an early date, but they do not tell us where from exactly. Broach—of which so far only some 2,000 bales have come to hand, and about 20,000 bales may be expected this month—is a good crop in quality but no larger in quantity than last year, while Dhollera on the average promises less. Sholapore and Westerns the districts report almost *nil* and Dharwar and Comptas are without doubt below the average, so that it is somewhat difficult to see whence the heavy rush of supplies is to come. With excited markets we might we think get as much Cotton as last year between now and the monsoon leaving the present difference as the ultimate deficiency, but with a continuance of dulness such as we are now experiencing we should call 8,50,000 bales a full estimate of the season's shipments.

The movements of Cotton to date show the following Comparisons with the two previous year:—

Wheat.—The tenor of the home advices being still quiet, and Freights at the same time firm, the business done for export has been small and prices are rather easier if anything. We quote Old No. 1 White Pessy Rs. 23, New May delivery Rs. 24½, Old Jubbulpore Rs. 20, Laskari Rs. 18 to Rs. 19, Khatha Rs. 17 per candy. Arrivals are small the result of the Holi holidays.

Seeds.—*Linseed* is now arriving very freely and has receded to Rs. 5-10 to Rs. 5-11 ready Rs.'5-9½ for May delivery. The crop is large and earlier than was at one time expected. Of *Rapeseed* some new crop has begun to come in but as yet in very small lots. New Guzerat we call Rs. 5-12 to Rs. 6 per cwt. *Gingelly* is still in large supply and prices are firm at Rs. 36 to Rs. 39 per candy.

TELEGRAMS.

THE RUSSIANS IN CENTRAL ASIA.

IMPORTANT PROPOSAL BY THE NIZAM.

(FROM OUR OWN CORRESPONDENT.)

HYDERABAD, MARCH 12.

I learn that the Minister has, by the command of the Nizam, addressed a letter to the Resident on the subject of the attitude of the Russians on the Afghan frontier and the impending military demonstration at Rawal Pindi.

The letter says that the Russians calculate on the baseless assumption that if complications should arise they would have in the front an imperfectly united India.

The Minister states it is necessary to undeceive them in this matter, and therefore the Nizam proposes, with the sanction of the Viceroy, sending the Minister's brother to Rawul Pindi to represent His Highness at the coming assemblage. The presence of a representative of the leading Mahomedan Native State would prove useful, by demonstrating to the Afghans, the Russians, and the world at large that in this matter all India stands shoulder to shoulder with the Government of the Queen-Empress in resisting aggression.

Mr. Cordery, I learn, has sent this letter on, and it is thought that the Viceroy will approve of the proposal, when the Nawab Mooneer-ool-Mulk with a suitable staff will proceed forthwith to Rawal Pindi.

There will be a debate in the Lords, probably on Monday, regarding the Bill. Several members spoke in the House of Commons supporting Mr. Maxwell, notably Sir George Campbell, who attributed the "indecent haste" in passing the Bill to the anxiety of members of the Council to get up to Simla. Mr. Cross promised to procure information from India by telegram.

THE returns published in yesterday's *Government Gazette* do not show any improvement in the health of the city, so far as cholera is concerned. During the week ending the 10th instant there were 34 deaths from cholera, against 7 in the corresponding week of last year, and a mean of 3 in the corresponding weeks of the preceding five years.

THE following is a summary of the Bombay Presidency season reports for the week ending March 10 :—"Rabi harvest nearly completed in parts of Poona, Satara, and Belgaum: in progress in other districts. Standing crops injured by mildew in parts of Nasik and by rust in parts of Shikarpore. Scarcity of fodder in three talukas of Dharwar and of drinking water in five talukas of Dharwar and one of Kaladgi. Cholera and small-pox in parts of nine districts, cattle-disease in parts of six, and fever in parts of twelve districts."

THE Punjab Chiefs will furnish contingents for the Pindi camp if the railways are equal to carrying them there in time.

THERE is reason to believe that in the event of war the Indian authorities will ask the Home Government for an increase to the army in this country of at least fifteen thousand men from England.

READ side by side with the telegram sent by our Simla correspondent a day or two ago regarding reported hostilities between the Afghans and the Russians the following paragraph from the *Pioneer* is significant :—"There has been something more than the imminent danger of a collision between the Russian and Afghan outposts near Panjdeh, there has been actual collision in some shape. No confirmation of our news to the effect has reached India, but there is nevertheless no disposition in the best informed quarters to disregard it—rather the contrary."

THE Government of India is preparing for the worst. In addition to sending reinforcements to Quetta and equipping a force for Pindi on a war scale, other steps have been taken, not apparent to the public, to secure the instant massing of troops should war be declared. Movements by rail to certain points, of troops for service, have been mapped out, and if the storm breaks we shall not be taken unawares. It is pleasant to notice how great is the confidence expressed in Lord Dufferin on all sides, and how calmly and without apprehension the development of affairs is being awaited, in this country at least.

THE Moplahs have been so far tamed, at least for the time, that the detachment of the 43rd Regiment which was recently despatched to the Malabar Coast is about to return to Bangalore.

IT is quite possible, in view of the present attitude of Russia, that Colonel Chesney may not go home after all; but if he does, it is considered probable that the appointment of Accountant-General will be kept open until it is known whether Major Collen will return.

As the Umballa and Lahore race meetings have to be postponed on account of the camp at Rawal Pindi, it is suggested the meeting should be held at the latter place. An up-country paper says :—"Such an opportunity as will be presented by the assemblage of so many sporting regiments might, and probably will, be availed of for holding a race meeting at Pindi, on a scale like that of the one held on the occasion of the Imperial Assemblage. The event might be included in the programme of the entertainment for the Ameer, and the Viceroy would no doubt support a proposal for a special cup to be run for. If this suggestion find favour there is little time to be lost and a prospectus should be framed at once.

IT will be remembered that the Anchor Line steamship Justitia was wrecked about a month ago on a sunken rock eighteen miles below Colombo, News has now been received that the commander. Captain Allison, has been honourably acquitted by the Court of Inquiry held at Colombo on the 20th of February. The accident was solely due to the fact that the Admiralty chart clearly showed that outside the Pandora Rock there were nine fathoms of water. The Pandora Rock has always been considered a landmark for passing steamers, and so long as a steamer was outside of it, she was considered perfectly safe. The rock which has now been discovered casts some doubt on the accuracy of the charts of that part of the coast, and the Government of Ceylon, considering that a fresh survey should be taken, has requested the Lords of the Admiralty to take the necessary steps for a thorough examination of the coast. Captain Allison is to be congratulated on the decision of the Court of Inquiry.

THE Arab journal *Nusret* contains an interesting description of the organization of the Mahdi's forces, and calls attention to the fact that Mahommed Ahmed has adopted, in all essentials, the military system of the early Caliphs. The tactical unit of his army is the "brotherhood," consisting of ten men who are originally under the orders of their senior in age. Any soldier, however, who specially distinguishes himself may be promoted to the leadership. Ten of these "brotherhoods" form a company, at the head of which is a ferik, and ten companies form a regiment, which is commanded by an emir and his lieutenants. Every company has its linen flag, which invariably bears the two crossed swords that form the military device of the Mahdi; but the colour of the flags varies, each regiment having its own, and, in fact, being known by its colour. Deeds of bravery are rewarded with a present of gold; and any private may, by continued gallantry, raise himself to the rank of ferik, or even of emir. When the Mahdi commands in person, he is accompanied by ten emirs, who constitute his staff, ten officers who act as aides-de-camp, and by four mounted bairakdars, or standard-bearers. These twenty-four immediate companions of the General-in-Chief are alone eligible to sit on courts-martial and councils of war; but the Mahdi is said to have several unofficial counsellors, and among these, doubtless, are the two Frenchmen who, according to the Paris papers, have thrown in their lot with him.

TELEGRAPHIC WEATHER REPORT.

CALCUTTA, March 11.—The barometer has fallen in the Punjab, at a few stations in Bombay, and at Trichinopoly, Colombo, and Dhubri; but has risen elsewhere. A depression still exists over the peninsula, but the shallow disturbance reported from Bengal yesterday has travelled eastward and is occasioning the fall at Dhubri. Readings are relatively high in the West Punjab, in the Upper Assam valley, and the Carnatic coast, and lowest at Mercara and off Sholapore. The wind has shifted to the west or to the north of west in Bengal. Elsewhere there is little change. The direction remains easterly over the central parts of the country, over Rajputana and most of Bombay; south-westerly on the Konkan and Travancore coasts; and south-easterly in the Carnatic and Circars. The temperature has risen in Northern and Central India, the Circars, and South Madras generally. There is a decrease elsewhere. The maximum over India was 102° at Kurnool and Salem. Much cloud prevails in parts of the Punjab, Sind, and Lower Bengal; and rain has fallen in the last-named region. Elsewhere the weather is fine. Rain to-day :—Cuttack, 1·2 inch.

THE SUIT AGAINST SIR MUNGULDAS NATHOOBHOY.

THE suit in which Jugmohundas Munguldas, the youngest son of Sir Munguldas Nathoobhoy, Kt., C.S.I., claims a partition of the ancestral property alleged to be in the hands of his father, was further proceeded with yesterday before Mr. Justice Scott, at the High Court.

The Hon. Mr. Latham, Advocate-General, and Mr. Jardine, instructed by Messrs. Macfarlane and Eglesbo, appeared for the plaintiff; and Mr. Macpherson, Mr. Inverarity, and the Hon. Mr. Telang, instructed by Messrs. Little, Smith, Frere, and Nicholson, represented Sir Munguldas Nathoobhoy.

His lordship, addressing the Advocate-General said he had been through the evidence tendered by him, and had found that he had already called forty witnesses. A great amount of the evidence, his lordship observed, was of the same character, though there were of course a few exceptions. They did not require a very large number of witnesses to give rebutting evidence.

The Advocate-General replied that he was coming to the end of his evidence, and did not intend to go on much longer.

As regards the rebutting evidence, his lordship told Mr. Inverarity that the documents would be admissible, but that he did not think he could be allowed to call further evidence.

Mr. Inverarity said he would discuss the point when he tendered the evidence on behalf of his client.

His lordship was of opinion that they had enough to go on with.

Tulsidas Jumnadas, a Visa Ladh Bania, employed as an inspector in the Assessment Department of the Bombay Municipality, said he did not know of any case in which a son had compelled his father to make a partition, but a son could get a share if the father was willing.

The effect of other witnesses was to the effect that a son could enforce a partition in his father's lifetime if he chose.

Holloway's Pills.—Epidemic Diseases.—The alarming increase of English cholera and diarrhœa should be a warning to every one to subdue at once any irregularity of the bowels and disease. Holloway's Pills should now be in every household to rectify all impure states of the blood, to remedy weakness, and to overcome impaired general health. Nothing can be simpler than the instructions for taking this corrective medicine, nothing more efficient than its cleansing powers, nothing more harmless than its vegetable ingredients. Holloway's is the best physicine during the summer season, when decaying fruits and unwholesome vegetables are frequently deranging the bowels, and daily exposing the human body to their negligent ie in permitting disordered action, to the dangers of diarrhœa, dysentery, and cholera.

INDO-BRITISH INSTITUTION: ANNUAL MEETING.

H. E. THE GOVERNOR presided at the annual meeting of the Indo-British Institution on Wednesday, the proceedings taking place in the old building, from which it is hoped the children will be removed at no distant date. Sir James Fergusson and Miss Fergusson, who were seated in the compound by a guard of honour furnished by the cadets under Sergeant Major Abbott, were supported by Mr. Justice Scott, Mr. Justice Pinhey, Mr. Justice Bayley, Mr. Justice Birdwood, the Hon. J. B. Peile, the Hon. F. L. Latham, Archdeacon Sharpin, Mr. E. Gay, Mr. F. Rowland, Mr. M. H. Starling, and Mr. W. E. Hart and Mr. W. Hughes. To Miss Fergusson was presented a handsome bouquet. A large number of ladies also graced the proceedings by their presence, and subsequently exhibited further proof of their kindly interest in the institution by visiting the fancy fair which a committee of their number, under the presidency of Mrs. Gay, had successfully organised, finally leaving the institution after lightening their purses and the financial anxieties of the management. At the meeting the children relieved the formality of the annual proceedings by singing a series of selections very pleasingly.

The Rev. C. Gilder read the following report :—The Committee of the Indo-British Institution, in presenting their report for the past year, earnestly renew their appeal to the liberality of the public. The institution, which has for many years provided a home and education for the industrial class of English and Eurasian children, continues to maintain its useful character. There were on the 31st December last 93 boarders in the two schools, of whom 49 were boys and 44 girls. Of these children only six are fully paid for, and one child is maintained at the income of the Green Scholarship Fund. Forty-eight children (or 5 more than in 1883) are on the free list : while for 32 children only a portion of the cost of maintenance has been paid by parents or friends, the remaining cost being borne by the institution. For the entire or partial maintenance, therefore, of 86 children the Committee have been dependent upon the alms and gifts of the public. During the year 23 children (14 boys and 9 girls) were admitted and 30 children (17 boys and 13 girls) were withdrawn. One boy died. Of the children who were withdrawn 24 (12 boys) having passed a satisfactory examination has been employed in the Government Telegraph Department; another boy is an apprentice in the Mint; and a third was for a short time engaged as a pupil assistant to a dentist. One girl has obtained service with a family at an out-station. There were at the end of the year 21 day pupils on the roll, of whom 7 were boys and 14 girls. The actual school attendance (inclusive of day-scholars) was 114. The Government examination of the Boys' School in secular knowledge was held in November. The Committee regret that the result was disappointing owing partly to the circumstance that several of the elder boys had left the school and obtained employment. The grant awarded by the Educational Inspector (Mr. Jacob) was Rs. 437. The Girls' School was inspected in December last by Mr. Kirkham, who expressed his satisfaction with the discipline, as well as the quality of the instruction imparted. At the request of the Right Rev. the President the children of both schools were examined in religious knowledge by the Rev. G. Gothard, Garrison Chaplain, who writes :—"The whole school gave evidence of very careful teaching in religious subjects." The subscriptions and donations received for the general fund have amounted to Rs. 5,743-3-7, being an increase of Rs. 2,095 9-9 on the amount for the previous year, and made up as follows :—Annual subscriptions, Rs. 1,010; monthly subscriptions, Rs. 973; donations, Rs. 3,760-3-7. The satisfaction of the Committee in the marked improvement in the receipts is, however, tempered by the fact that it has been chiefly in the direction of casual benefactions, while the number of annual subscribers, from whom the elected members of the Committee are chosen, remains stationary. A sum of Rs. 521-6-3, being the proceeds of a concert given in the Town Hall in January, 1883, for the benefit of the institution, has been received from Mr. H. G. Johnston, for which the Committee tender their acknowledgments. Their best thanks are due also to the ladies and gentlemen who gave their services as an entertainment in March last in the Gaiety Theatre for the share of the proceeds (Rs. 635-1-4) handed over to the institution. The offertories received from the churches show an increase from Rs. 1,884-13-0 in 1883, to Rs. 2,082-15-3 in 1884. The Committee express their obligations to the clergy who have had collections for the institution during the year. The payments on account of boarders have been Rs. 5,446 11-1 as against Rs. 5,717-3-8 in 1883. The receipts from day-scholars' fees have amounted only to Rs. 53-4 for the year. The total income of the general fund from all sources has been Rs. 16,213-12, while the year's expenditure has amounted to Rs. 16,126-8-9, leaving a very small balance to the credit of the institution. The Committee trust that a knowledge of this circumstance will move the friends of the institution to accord it timely and liberal aid, if its usefulness is not to be crippled : one half of the estimated expenditure of the year (over Rs. 8,000) having to be raised from the public in subscriptions and church offertories. As stated before, one boy has died, but the health of the children generally has been good. The Committee take this opportunity of recording their best thanks to the authorities of the European General Hospital for the care and attention which they have uniformly shown the children sent there for treatment. The ladies have, as in previous years, accorded their valuable assistance in the visitation of the girls' school. The vacancies in the Managing Committee, caused by the retirement from India of Dr. Graham and Mr. Justice Kemball, have been filled by the appointment, under rule 6, of Mr. E. Gay and Mr. Justice Birdwood. The Committee are thankful to be in a position to report that the first steps have been taken towards the removal of the institution to a more desirable locality. It will be remembered that it was originally contemplated to enlarge and improve the present buildings, but that His Excellency the Governor, on going over the premises at the annual meeting in 1883, strongly advised that an attack him in his presence, but perhaps Sir James Fergusson would bear with him while relating the services he had rendered to the institution. Ever since his arrival the Governor had never failed to preside at their meetings. The admirable manner in which His Excellency had done this made them all think it a very easy task. So it would be if facility of speech and expressing right ideas were the only requisites necessary, but the Governor had other things to consider. Yet their president had always made not only an excellent speech, but had said the right thing at the right time in the right place. At the Christmas season also His Excellency had never failed to send special presents to the children and to provide for them a good Christmas tree. (Cheers.) Two years ago His Excellency went through the institution according to custom, and although he was satisfied it was managed as well as could be in its present situation, he came to the conclusion the locality might be changed to advantage. Without making any promise the Governor cons
